

WORLDWIDE CERAMIC HYBRID TRANS BEARINGS

Silicone nitride balls are up to 40% lighter and have an extremely low coefficient of friction and are able to withstand higher operating temperatures.

ZX12 & GSX1300R 5TH/6TH GEAR SET

Made of heavy duty aircraft steel, the 5th output gear and 6th gear set is 7% taller ratio than standard. Allows re-gearing for acceleration without sacrificing top speed performance.

HEAVY DUTY BILLET OUTPUT SHAFT

Heavy duty Orient Express billet output shaft is machined from super-high strength aircraft alloy steel. Sprocket spline area increased to 30mm diameter. Direct replacement includes sprocket spacer and sprocket. GSXR1000 01-08, GSX1300R 99-07, GSX1300R 08-09. Also available for GS1100/1150 and GSXR1100 86-92.

HEAVY DUTY BILLET REPLACEMENT GEARS

4340 aircraft quality steel, heat treated, improved tooth and slot designs for high horsepower applications.

HEAVY DUTY TRANS BEARINGS

ORIENT EXPRESS offers a bearing kit that will hold up under racing conditions where the stock bearings fail.

TOOL STEEL SHIFT SHAFTS

For flex free shift fork action and positive gear selection.

BILLET AUTO TRANSMISSIONS

6 SPEED AUTO TRANSMISSIONS

GSX1300R

The new all-billet GSX1300R 6 speed auto, constructed from high tensile aircraft-quality steel, has a 30mm input shaft, three engagement dogs instead of four (for easier shifts), and taller 5th and 6th gear ratios of 1.10:1 and 1:1 for more MPH. This trans fits in your stock engine case with no modifications or machine work necessary.

3 SPEED TRANSMISSIONS

KZ, GS, GSX1300R

- 4340 aircraft quality steel
- Precise heat treating. Air kill version available

5 SPEED AUTOMATIC TRANSMISSIONS Pro Stock/Pro Mod

Designed for six-second 300+ horsepower performance.

- Ratios available: 1st: 2.45 or 2.50, 2nd: 1.78, 3rd: 1.35, 4th: 1.10, 5th: .95 or 1:1
- 4340 aircraft quality steel
- Precise heat treating
- GS/KZ output shaft spline
- Supplied with both shaft assemblies, shift drum
- Shift fork (Suzuki 4th/5th) (Kawasaki 1st/3rd & 4th/5th)

BILLET 4 SPEED TRANSMISSIONS Pro Mod

Top 4 speed transmissions are the answer to the many situations that don't work well with a 5 speed or 3 speed transmission

- 4340 aircraft quality steel
- Precise heat treating
- No spring loaded gears
- 1" wide gears
- Computer developed ratios: 1st: 2.64 or 2.41, 2nd: 1.67, 3rd: 1.22, 4th: 1.04 or 1.10.
